**TMD & OROFACIAL PAIN
INTERNATIONAL SYMPOSIUM**
January 17-19 / 2025
CANCUN · MEXICO

SYMPOSIUM OVERVIEW:

The International TMD and Orofacial Pain Symposium addresses gaps in knowledge and clinical practice regarding temporomandibular disorders and orofacial pain. It provides a comprehensive educational experience by integrating the latest research with practical applications, helping attendees gain in-depth understanding of the pathophysiology, diagnosis, and management of these conditions.

Participants will learn from leading experts, gaining cutting-edge information and innovative treatment strategies. The symposium fosters an interdisciplinary approach, encouraging collaboration among healthcare providers to effectively manage complex conditions like TMD and orofacial pain with a multifaceted treatment plan.

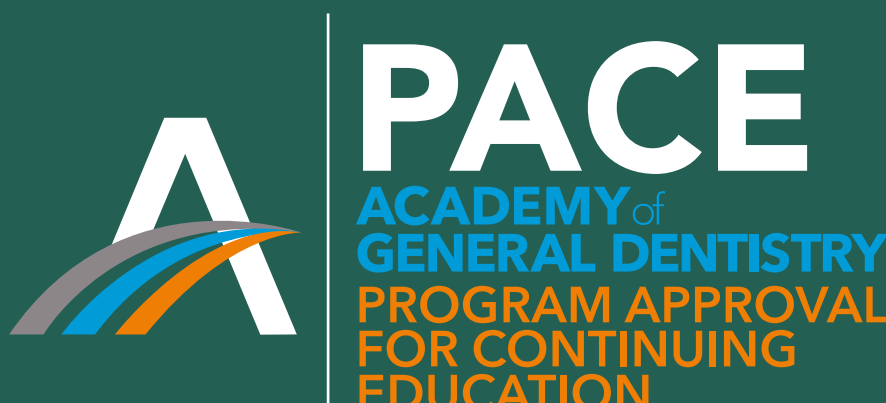

This symposium brings together experts, clinicians, researchers, and educators in the field to discuss the latest advancements, techniques, and research findings

TARGET AUDIENCE:

**General Dentists,
Specialists and
Health Care Allied**

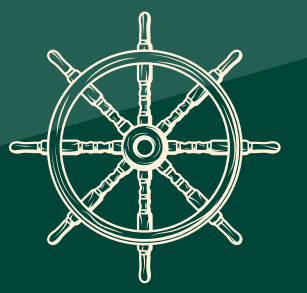

The symposium offers continuing education credits, helping attendees meet these requirements while advancing their knowledge and skills.

LEARNING OBJECTIVES:

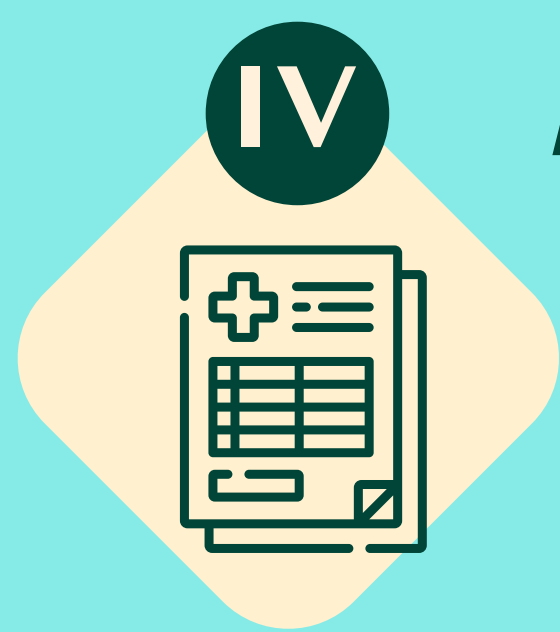

Understand the complexities of TMD, including etiology, diagnosis, and management approaches. This may involve discussions on occlusal factors, joint pathology, and therapeutic modalities.

Comprehend various orofacial pain conditions, including neuropathic pain, myofascial pain, and headaches, and discussing effective evaluation methods and treatment modalities.

Learn the importance of collaboration between dentists, sleep specialists, neurologists, and other healthcare professionals in addressing complex cases involving sleep disorders, TMD, and orofacial pain.

Highlight clinical experiences, case studies, and practical tips for diagnosing and managing patients.

The symposium will highlight strategies for fostering interdisciplinary collaboration, improving patient care through a team-based approach.

**TMD & OROFACIAL PAIN
INTERNATIONAL SYMPOSIUM**

**JANUARY 17-19 / 2025
CANCUN • MEXICO**

SYMPOSIUM HIGHLIGHTS:

- ◆ Present cutting-edge research on orofacial pain and temporomandibular disorders (TMD), and discuss recent developments in the understanding and treatment of these conditions.
- ◆ Explore advanced diagnostic tools and methodologies for accurately identifying orofacial pain and TMD.
- ◆ Review various treatment options, including pharmacological, non-pharmacological, and surgical interventions and highlight the effectiveness and application of different therapies
- ◆ Address challenges and solutions in managing chronic orofacial pain and complex TMD cases, and present real-world case studies to illustrate treatment outcomes.
- ◆ Create opportunities for networking and collaboration among professionals in the field and foster connections that can lead to future research and clinical partnerships.

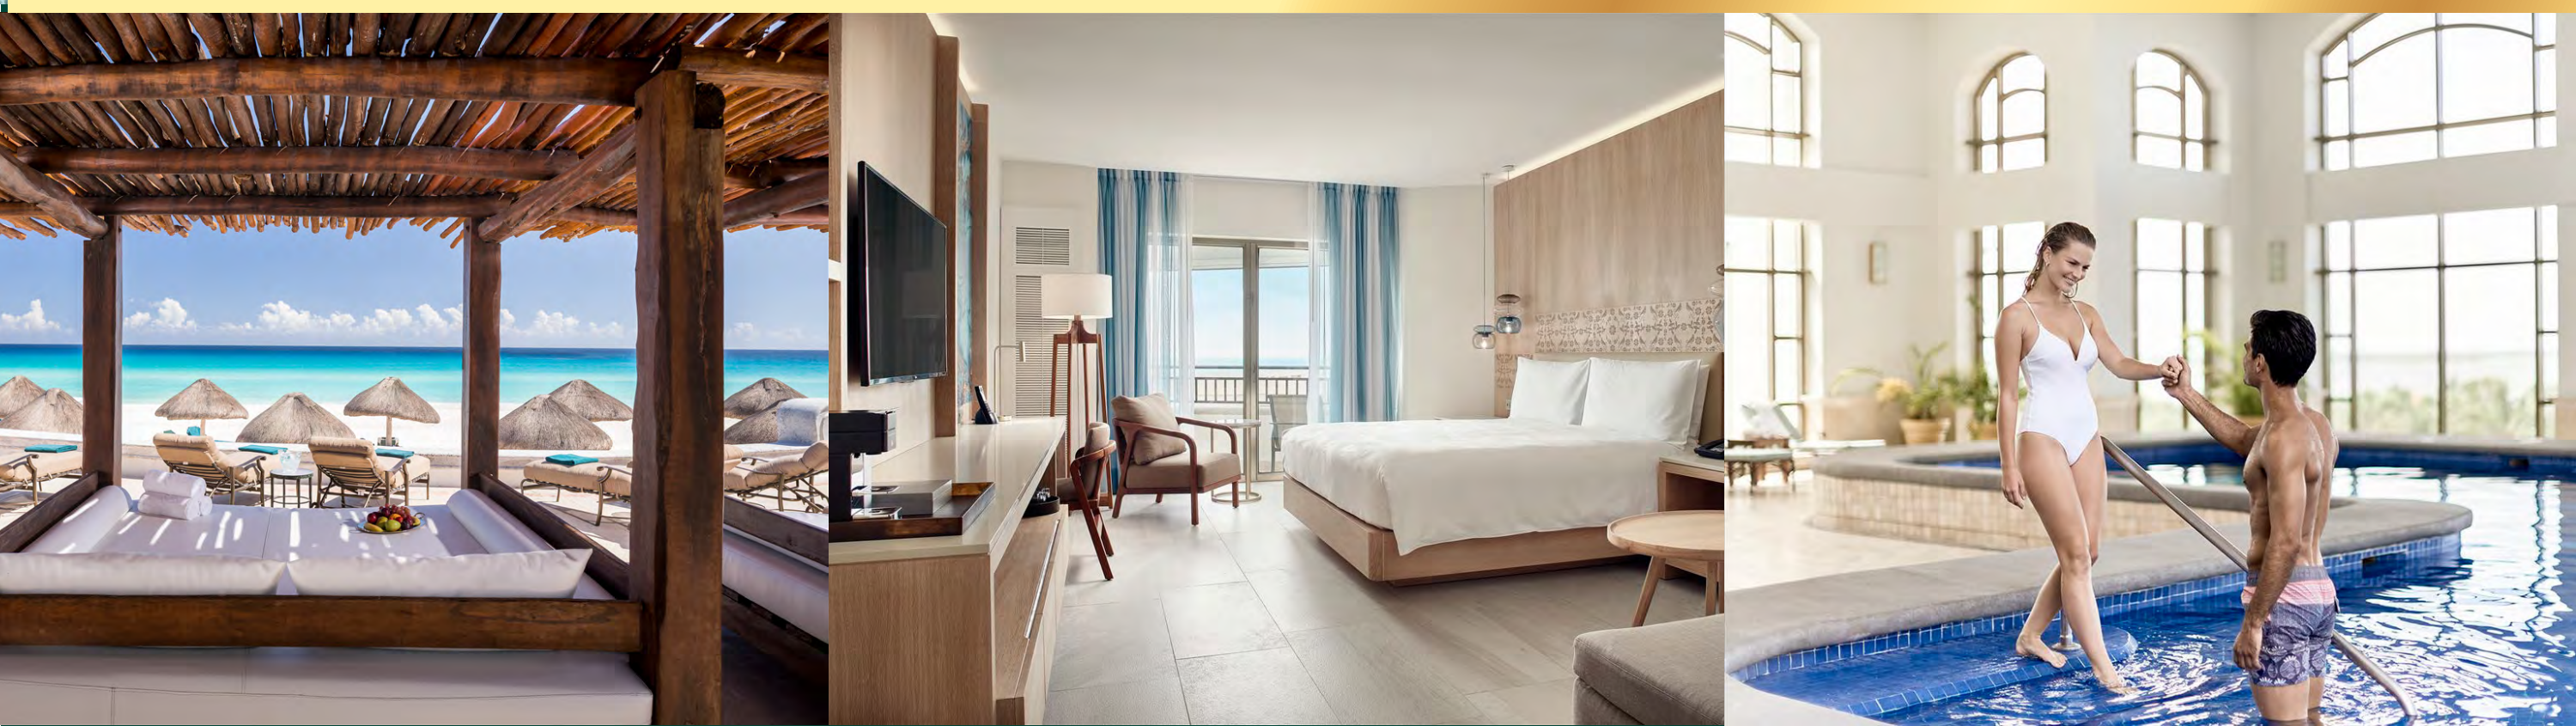

LOCATION:

JW MARRIOTT[®]
Cancun Resort & Spa

Is an oceanfront property located in the heart of Cancun's Hotel Zone, the resort offers a blend of elegance, comfort, and state-of-the-art facilities, providing an ideal setting for this prestigious event.

The resort provides a luxurious and convenient venue for TMD & Orofacial Pain International Symposium. With its excellent accommodations, dining options, meeting facilities, and recreational amenities, it offers an ideal environment for learning, networking, and relaxation.
