Leopoldo P. Correa
Director, Orofacial Sleep
Consortium- Global

The "**Study Cloud**" of the Orofacial Sleep Consortium is an innovative, comprehensive, and dynamic educational platform designed to provide knowledge and practical skills in the areas of temporomandibular disorders (TMD), orofacial pain, sleep disorders, and airway management.

ONLINE PROGRAM

Study Cloud

Asia

STRUCTURE

The "**Study Cloud**" is organized into four seasons, each consisting of monthly sessions that include a variety of educational formats:

Master Classes:

- Lectures by renowned experts in the field
- Focus on advanced topics and cutting-edge techniques
- Opportunities for live questions and interaction with the speakers

Clinical Cases:

- Detailed presentations of clinical cases
- Interactive discussions and problem-solving
- Emphasis on diagnostic approaches and treatment planning

Literature Reviews:

- Critical analysis of recent and foundational research articles
- Discussion of research findings for clinical practice
- Reviews of evidence-based clinical practice

The "**Study Cloud**" is designed to be a valuable resource for continuous professional growth, providing participants with the knowledge and tools necessary to continue excelling in the complex and evolving field of dental sleep medicine, temporomandibular disorders, and orofacial pain

MEMBERSHIP : BENEFITS

1. Access to Educational Resources:

- Comprehensive reading material with articles, case studies, and research papers on TMD, orofacial pain, and sleep-related disorders.
- Live online master classes with leading experts in the field.

2. Networking Opportunities:

- Connect with other professionals in the field through online forums and discussion groups.
- Invitations to exclusive events of the Consortium and workshops for members.

3. Professional Development:

- Access to advanced training in dental sleep medicine, TMD, and orofacial pain.
- Mentorship programs with experienced practitioners.

4. Clinical Support:

- Access to clinical guidelines and consulting services from consortium experts.

5. Research and Publications:

- Review of the latest research findings and clinical trials.
- Guidance for conducting and presenting research.
